FOREWORD

The ABC FACTBOOK has been published annually since 1971, when it was developed at the request of Canadian media planners for a convenient and comprehensive reference source on newspaper circulation and coverage in Canadian markets.

Data reported in this Factbook are derived from the latest ABC Audit Report for each member newspaper. Much of the circulation data reported herein can be readily updated from subsequent ABC FAS-FAX and member Publisher's Statements.

In addition to the Factbook, ABC offers a variety of computer generated Data-bank services covering county-unit tabulations structured to meet the user's specific requirements. Data-bank services are available without charge to ABC members. Further information on these services is available on request from any ABC office.

INTRODUCTION

The Canadian FACTBOOK consists of three major parts, plus a map section. Part I contains five sections of data for daily, saturday and sunday issues of daily newspaper members and the markets they serve. Part II provides circulation and coverage data for weekly newspaper members. Part III provides circulation and coverage data for both daily and weekly member newspapers. Each section is printed on a different color for easy reference. Provincial maps at the back of this volume depict boundaries as defined in the 1981 census. Only those towns where ABC member newspapers are located, plus others which have a census population of 1,000 or more, are included.

Section A - Individual Newspaper Circulation by Market

Section A of Parts I and II show paid circulation coverages from the most recent ABC Audit Report for each member. These data are reported alphabetically within provinces which are listed geographically from east to west.

County (Census Division) circulation analysis follows the listing of market circulation averages. Paid circulation not analyzed by county, is included in the "Remainder of Circulation" total. An asterisk identifies each newspaper's county of publication in this listing.

The circulation/occupied household ratio is reported for each reporting market. The percentage of total paid circulation is shown for each component figure. Map reference coordinates shown for each newspaper's city of publication will aid in locating markets on maps, pages 273 - 292.

French language newspapers are identified with the code (F) following the newspaper name.

Section B - County and Census Division Circulations

These alphabetical listings of counties or census divisions by province in Parts I and II show circulation and household coverage ratios of each member paper with significant circulation in the area.

Section C - Daily and Weekly Newspaper Circulation

These sections in Parts I and II provide daily newspaper circulation and coverage in major markets and weekly newspaper circulation in alphabetical sequence by province and city.

Section D - Five Year Circulation Trends in Metropolitan Areas

Section D of Part I provides five year circulation and coverage data for all daily newspapers in the 24 census metropolitan areas.

Section E - Circulation Ranking

Section E of Part I ranks daily newspapers by total circulation.

Map Section

Provincial maps, placed at the back of this book, depict county or census division boundaries as defined in the 1981 census. Only those towns which contain an ABC publisher member, and others with 1,000 plus populations, are shown.

Map reference coordinates shown in each newspaper city of publications will aid in locating markets on maps.

USERS GUIDE TO PART I
DAILY NEWSPAPER ANALYSIS

Part I analyzes circulation data for daily newspapers and the markets they serve. Each of the five sections is printed on a different color for ease of reference. Map reference coordinates relate to provincial maps on pages 273 - 292.

Section A - Individual Daily Newspaper Circulation by Markets and Counties

This section lists paid circulation averages for each newspaper, extracted from the most recent ABC Audit Report. Separate figures are reported for each of the established market areas and for the total average paid circulation. Circulation figures are also reported for Census Metropolitan Areas. Listings for all newspapers published within these census-defined markets report circulation for the market within which each is published.

The individual newspaper's county circulation data follows the listing of market data. Home county circulation is shown plus figures for other counties where the newspaper reports circulation of at least 250 copies or a 5% circulation/occupied household ratio. Other paid circulation is included in the "Remainder of Circulation" total.

Occupied households shown for newspaper markets and Census Metropolitan Areas are ABC estimates for the year in which the audit period ended. Occupied households for Counties (Census Divisions) are 1987 estimates.

It should be noted that circulation figures for Census Metropolitan Areas and Counties are extracted from Paragraph 3 of ABC Audit Reports and, as such, do not necessarily represent the average for all daily issues. Under ABC rules, a separation of averages is required where daily circulation on a given day or days is considered abnormally high or low.

Section B - County and Census Division Circulation & Coverage

This alphabetical listing of counties or census divisions by province reports the circulation and circulation/occupied household ratio of all daily newspaper members having at least 250 copies or 5% circulation/occupied household ratio. As in Section A, 1987 occupied household estimates are shown.

Section C - Major Market Circulation and Coverage

Publisher reported or ABC compiled circulation data coupled with 1987 estimated population and occupied households are provided in this section for major markets where ABC member daily newspapers circulate. These major markets are listed by size, according to the total market population. Map reference coordinates are provided to aid in locating markets, pages 273 - 292.

Newspaper circulation within these census-defined areas with the circulation/occupied household ratio is shown for all member daily newspapers having at least 500 circulation in the area. Newspapers published in the market area are identified by an asterisk.

Section D - Five Year Circulation Trends In Metropolitan Areas

Five year trend data on circulation of daily newspapers in the 24 Census Metropolitan areas are included in this report for the first time. These include coverage ratios, single copy sales, subscription sales and their proportions of total circulation.

Section E - Circulation Rankings

The table in this section ranks daily newspapers by total circulation for each edition.

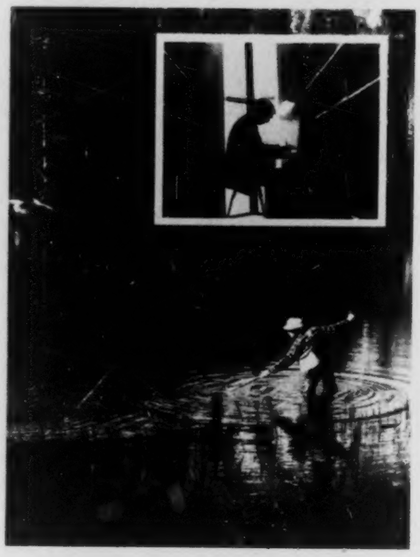
For the client that had you spend a Saturday fishing for more information, you *could* have been fishing!



Late nights and long weekends spent fishing for critical media data should be a task of the past. ABC's Circulation Data Bank can do your time-consuming "fishing" for media data in a fraction of the time, and prepare up-to-date reports in any one of three flexible applications.

1. *Customized Reports*, prepared according to your requirements, and sent to you as computer print outs, magnetic tape or on PC diskettes.

2. *On-Line Services*, making critical comparative data immediately available through the assistance of leading media time-sharing companies.

3. *Data Bank Publications*, prepared annually for easy desk-top reference.

For your Data Bank Portfolio, call or write: Lisa Salems, Audit Bureau of Circulations, 900 North Meacham Road, Schaumburg, IL 60173-4968. Telephone: 312-885-0910.

USERS GUIDE TO PART II
WEEKLY NEWSPAPER ANALYSIS

Part II of the ABC Canadian Newspaper FACTBOOK provides analyses of data for ABC member Weekly Newspapers.

Each of the three sections in this part is printed on different color paper for easy reference. Map reference coordinates used in this book are for the Provincial maps appearing on pages 273 - 292.

Weekly newspaper members of ABC are audited annually when published in the city or City Zone of a daily newspaper member and bi-annually in other areas. In Section A, a crosshatch symbol is used to identify those newspapers which are audited annually.

Occupied households for Counties (Census Divisions) are 1987 estimates.

Section A - Analysis of Individual Weekly Newspaper's Circulation by Counties

This section lists total paid circulation averages for each newspaper, as reported in the most recent ABC Audit Report.

The individual newspaper's county circulation data follows the listing of total circulation averages. Home county circulation is shown plus any county where a newspaper reports circulation of at least 250 copies or a 5% circulation/occupied household ratio. Other paid circulation is included in the "Remainder of Circulation" total.

Section B - Weekly County (Census Division) Circulation & Coverage Analysis

This alphabetical listing of counties or census divisions by province reports the circulation and circulation/occupied household ratio of all Weekly Newspaper members having at least 250 copies or 5% circulation/occupied household ratio.

Section C - Circulation of Weekly Newspapers by Province and City

Circulation of each ABC Weekly Newspaper member is reported in alphabetical sequence by province and city. Separate columns identify home county or census division, frequency of publication and total average paid circulation.

For the client that had you spend a Saturday fishing for more information,

Late nights and long weekends spent fishing for critical media data should be a task of the past. ABC's Circulation Data Bank can do your time-consuming "fishing" for media data in a fraction of the time, and prepare up-to-date reports in any one of three flexible applications.

For example, current circulation figures of major magazines and newspapers can be matched against any county based marketing area.

1. *Customized Reports*, prepared according to your requirements, and sent to you as computer print outs, magnetic tape or on PC diskettes.

2. *On-Line Services*, making critical comparative data immediately available through the assistance of leading media time-sharing companies.

3. *Data Bank Publications*, prepared annually for easy desk-top reference.

For your Data Bank Portfolio, call or write: Lisa Salems, Audit Bureau of Circulations, 900 N. Meacham Road, Schaumburg, IL 60173-4968. Telephone: 312-885-0910.

For the client that had you spend a Saturday fishing for more information, you *could* have been fishing!

Late nights and long weekends spent fishing for critical media data should be a task of the past.

ABC's Circulation Data Bank can do your time-consuming "fishing" for media data in a fraction of the time in any one of three flexible applications: *Customized Reports, On-Line Services* and *Data Bank Reference Publications.*

For your Data Bank Portfolio, call or write: Lisa Salems, Audit Bureau of Circulations, 900 N. Meacham Road, Schaumburg, IL 60173-4968. Telephone: 312-885-0910.

USERS GUIDE TO PART III
DAILY AND WEEKLY NEWSPAPER ANALYSES

Part III of the ABC Canadian Newspaper FACTBOOK provides analyses of data by Newspaper County (Census Division) Circulation & Coverage for both Daily and Weekly ABC member Newspapers within the same listings. For easy reference, the section is printed on the same color paper as the corresponding sections in Parts I and II.

An explanation of the data shown for Daily Newspapers in this section is provided for Part 1, Sections A and B, shown on pages 1 and 2. Similar explanations of data shown for Weekly Newspapers may be found on page 145.

Occupied households in Section A for Counties (Census Divisions) are 1987 estimates.

Map reference coordinates used in this book are for the provincial maps appearing on pages 273 - 292.

For the vacation that you missed because the media plan was still up in the air, you *could* have been in the air!

When the media plan is being rewritten for the fifth time on the first day of your vacation, you should have called the Circulation Data Bank.

This comprehensive service saves countless hours while producing up-to-date reports with the full credibility of the Audit Bureau of Circulations.

ABC member companies and advertising agencies can solve complex media planning problems through three flexible applications.

Customized Reports, which come to you in computer print-outs, magnetic tape or PC diskettes; *On Line Services*, which provide instant access through the assistance of leading media time-sharing companies; or various annual *Data Bank Reference Publications*.

For more information and your copy of the Circulation Data Bank Portfolio, call or write: Lisa Salems, Audit Bureau of Circulations, 900 N. Meacham Road, Schaumburg, IL 60173-4968. Telephone: 312-885-0910.

COUNTIES AND TOWNS

The following lists counties then towns and counties - in alphabetical order by province. 1986 Census population and map reference coordinates also appear. 1981 Census figures are shown (in italics) for unincorporated communities, since their 1986 counts were unavailable at press time. Only those towns are included which have 1000 + (Census) population.

COUNTIES AND TOWNS

The following lists counties then towns and counties - in alphabetical order by province. 1986 Census population and map reference coordinates also appear. 1981 Census figures are shown (in italics) for unincorporated communities, since their 1986 counts were unavailable at press time. Only those towns are included which have 1000 + (Census) population.
